

## TIPS FOR PACE OF PLAY

- \* Be ready when it is your shot. Please ask or give permission to play out of order, anywhere on the golf course, if a player is not ready to play or if your group is out of position.
- \* Pick up your ball when the putt is given.
- \* Concede the hole if you are out of contention. Make sure it is a point lost in the competition for that hole for both scratch and handicap.
- \* Write down the score you most likely would have gotten on the hole with an X.
- \* If a player is confused about scoring when leaving the green, be sure to agree on the gross score before teeing off on the next hole and move on (your Captain will help in the clubhouse with handicap scores).
- \* Do not take more than 3 minutes to locate your ball. Mark and clean your ball quickly with Preferred Lies. Mark and measure your drop quickly when taking relief from a penalty area. As a common courtesy tell at least one opponent what you are doing.
- \* **NEW FOR TEAM PLAY:** If your Foursome is a hole or more behind, ALL 4 players should pick up and move to next tee box. The hole will not count in competition (basically a Tie for the hole). For posting purposes use net par (par plus handicap) if a hole is skipped. If there is confusion on this it will be figured out in the clubhouse after the round.
